

22 November 2021

Greetings from the Technical Education and Skills Development Authority!

The COVID-19 pandemic and the hastening of the 4IR dramatically altered the way we work, the way we communicate, and the way we live. As global economies gradually show signs of recovery, the world of work continues to undergo significant shifts forcing workers and enterprises to adapt fast. With its straddling role both in education and labor and its potential for agility, TVET must also undertake new strategies and re-calibrate policies to scale up and push forward the sector and provide skills to its clientele to aid the Philippines bounce back to economic recovery.

To this end, TESDA is organizing the **TVET Policy eForum 2021** on **03 December 2021, 1:00 - 4:00 PM via Zoom and Facebook Live** with the theme "Disruption to Direction: Adaptive Strategies in TVET for Resilience towards the Future." Picking up from the insights and recommendations from the eFora Series in 2020, the 2021 TVET Policy eForum seeks to present Philippine TVET's new and enhanced strategies for the workers and enterprises to adapt to the new normal and be future-ready. Also, reactants from government, industry, or international body shall be invited to provide their insights on the topic discussed.

In this regard, may we respectfully invite you or your organization's representative/s to participate in the eForum. Please go to <http://bit.ly/tvetpolicyforum2021> to register. For more details, please visit <http://bit.ly/tvetpolicyefora>. For inquiries, you may contact Planning Office – PPD at po.ppd@tesda.gov.ph.

The concept note and programme are also attached for your reference.

Thank you and looking forward to your participation.

Very truly yours,

SEC. ISIDRO S LAPEÑA, PhD, CSEE
Director General, TESDA *per*
